*To judge them – please grow them,
How else can you know them?*

*In the gardens they flourished,
With what were they nourished?*

*Do they bloom in profusion,
Or is that an illusion?*

*Can they take summer showers
And last thru long hours?*

*Will they bloom in the shade,
And in full sun, not fade?*

*Are the scapes strong and straight?
Just how do they rate?*

*These questions – to know them,
Dear friend, you must grow
them !*

GREETINGS GARDENING FRIENDS—

Happy New Year to you! With spring already on the way—so full of promise—how can you be anything but glad!

As for us—we have been very busy. To reduce the back-breaking job of weeding—and Florida weeds are the worst—we have been treating our acre with methyl bromide under plastic, an expensive and time consuming project! But it is paying off! Imagine our delight at annual inspection time to get back a report that it had been effective in other ways too. At present no nematodes!

California customers please note—we can ship to you direct under certificate!

Of course the informed know that the eradication of nematodes is only temporary. They live in host plants all about you—even in the centipede grass you walk upon—but they can be kept to a minimum—with mulch (we are using sawdust) and good horticultural practices. Daylilies for the most part can live with them, and thrive, if given proper care, which includes not over-feeding as well as not giving too little.

We are offering, along with our own introduction, many of those from other hybridizers. Each year we try a few new ones—take a sampling from the field as it were. The ones we are listing are from those that have performed well in our garden. Dormant or evergreen, we can recommend them to you. We believe you will find among them some varieties you have not grown before. We think they are worth growing. Why not try them?

Our 1962 crop of seedlings is the most numerous—and the most promising—we have looked forward to for several years. We extend to each of you personally a cordial invitation to visit us at blooming time—the first week in May is generally peak—but throughout the season we will be glad to see you—so until then our best wishes to you for good health, good fortune and good gardening.

Sincerely,

Ophelia Ann Taylor

Mrs. Bright Taylor

Introducing

HAPPY PRINCESS (6286)—34" M Re Ev—Wide, ruffled, overlapping segments of bright "butter yellow" characterize the blossom on this daylily. Multiflora habit of bloom. Well branched scapes. Sunfast. **\$20.00**

HEARTSTRINGS (734A)—36" E Re Ev—Lavender pink with canary yellow throat. Heavy substance, both sun and rain resistant. A silvery overcast lends sparkle to the blossom and catches the eye. **\$20.00**

GOLDEN SPANGLES (828A)—34" E thru ML Ev—Deep gold of heavy substance and Golden Moth form. An early bloomer, it opens well in spite of cool nights giving it great garden value. **\$15.00**

RINDA (7-74)—30" E Re Ev—A very pale ivory with a halo in the Quincy pattern extending far down into the throat. Very sunfast. Small flowers on well branched scapes. A distinctive daylily — difficult to describe. JC-1961. **\$15.00**

SALLY LANDIS (59-14)—36" E Re Ev—A full round cup-shaped blossom in light beige pink with greenish throat. The satin smooth texture has a silvery overcast that gives it a truly luscious look. JC-1960. **\$25.00**

WEDLOCK (59-72-11)—32" E Re Ev—A wide-petaled, pale lemon with white midrib opening very flat—three blooms at one time in an amaryllis-like fashion. Excellent branching on strong scapes. Sunfast. Its long period of bloom has made it one of our most interesting garden attractions. JC-1960. **\$25.00**

There is no discount on our new introductions.

LEADING LADY (1955) 40" M Re Ev

Jasper-Red with wide ivory midrib and canary yellow throat. Good accent plant for either yellows or reds. **\$1.00**

LOCHINVAR (1947) 36" E Re Ev —

Mr. Schreiner says it better and I quote: "Variety of floral formation is a delight. This larger flowered, vibrant rose-pink terra cotta with overlapping petals is unique." HM-1952. **\$1.00**

LODESTAR (1950) 36" E Re Ev —

Star-shaped blossoms in pastel shades of pink and cream, with faint veining of Formosa. An unusual throat pattern makes it different from all other daylilies in the garden. **\$1.50**

MEADOWSWEET (1953) 36" M Re Ev

Large flower of lavender rose. The throat is Corn. Smooth texture and heavy substance. **\$1.50**

MIDSUMMER MAGIC (1960)

34" M Re Ev—A deep rose pink blending into a soft yellow throat which becomes green at the very bottom. Wide ruffled segments, recurving sepals, with a faint midrib. **\$7.50**

MOONGLEAM (1953) 40" M Re Ev — Sunflower Yellow self with the texture of fine porcelain. Fragrant and showy. Open evenings. **\$1.50**

NANTAHALA (1954) 34" E Re Ev — Pale blossoms between Peachblow and Maize with a throat of greenish yellow completely banded by wedges of Canna Red. Sunfast. Ruffled segments of heavy substance. Smooth texture. JC-1953; HM-1954; AM-1956. **\$3.50**

NATHAN MAYO (1958) 36" M Re Ev Large blossoms opening flat with wide Primuline Yellow throat. The petals are ruffled, while the sepals roll back and are overlaid with Burnt Sienna, leaving a lighter ruffled margin. **\$2.50**

OCALA (1956) 36" M Re Ev—Pale chrome lightly flecked with gold. Large and regular in form with petals and sepals of equal width. JC-1955; HM-1958. **\$5.00**

PINK RESPLENDENT (1959) 34" E Re D—Deep coral pink with satin-like texture. Sunfast. Well branched. Long blooming. **\$7.50**

PRIMA DONNA (1946) 36" M Re Ev Pastel blend producing peach tones in subtle variations. Our first introduction and one we still claim with pride. Has been on the Popularity Poll since the beginning. HM-1950; AM-1952; Stout Medol 1955. **\$1.50**

PURPLE PREFACE (1959) 30" E Re Ev Lavender pink with a band of purplish red enclosing the pale yellow throat, in an unusual pattern. **\$2.00**

QUEEN QUALITY (1958) 36" M Re Ev Pastel bi-tone of pink and cream suffused with pink. Broad segments, crisp and satin smooth. HM-1961. **\$3.50**

QUINCY (1955) 34" M Re Ev—Again we quote Mr. Schreiner whose descriptive powers are better than ours: "Quincy is a bold flower, with a striking eye pattern; the green throat is completely bordered by a wide band of reddish purple, then it abruptly pales to pastel peach beige. As exotic as a huge night flying moth. A striking daylily, it must be seen to be truly appreciated." **\$3.50**

RENDEZVOUS (1956) 34" E Re Ev — Medium sized blossom in subtle pastel shades of cream and lavender. A profuse and spectacular bloomer. JC-1955; HM-1957. **\$3.50**

ROYAL FAVOR (1961) 34" E Re Ev — Large, round, lavender blossom with bright green throat, conspicuous branching and sturdy scapes. Good substance. **\$15.00**

SALMON SHEEN (1950) 34" Re Ev Our best known daylily. Excellent performer. Distinctive form. Blend of salmon tones. HM-1953; AM-1946; Stout Medal 1959. **\$1.00**

SANIBEL (1954) 36" E Re Ev — Pale salmon with brassy yellow throat extending onto the petals to form a lighter eyezone. Profuse bloomer. **\$1.00**

SELENA BASS (1958) 34" E Re Ev — The medium sized cup-shaped blossoms of lavender pink have a purple halo at the throat and are borne on sturdy scapes. Completely sunfast. Open evenings. JC-1957; HM-1958. **\$7.50**

SHOSHONE (1957) 38" E Re Ev — Large ruffled blend of coral and cream. Vigorous, and profuse in bloom. JC-1956; HM-1957. **\$1.50**

Daylilies are perennials—not bulbs.

They will thrive **anywhere**—except in poorly drained soil.

They may be planted **anytime**—but we prefer resetting in late summer or early fall.

They will bloom **anywhere**—except in deep shade.

They will grow in **sand**—but prefer a heavier soil.

Any fertilizer will do—but one largely organic, low in nitrogen, is best.

Give them **plenty** of water, **plenty** of room, **plenty** of time, and they will give you **plenty** of bloom in return.

Before Ordering Please Read!

- Order Early** It costs no more. Shipment will be made at the time you specify. By ordering while stock is available you avoid disappointment. Our space permits us to grow only a limited number of each variety.
- Terms** Cash with order. Please send full amount of purchase price when requesting reservations.
- Prices** Are as low as we can keep them and still maintain quality and provide dependable service. They are based on strong single divisions that should bloom the first year—but since gardening conditions and skills vary we can make no guarantee.
- Guarantee** We do guarantee healthy stock, freshly dug, true to name, plainly labeled, and packed to reach you in good condition. If unsatisfactory for any reason, notify us at once, return the shipment with original labels, and we will replace—or refund the purchase price.
- Postage** Postage is paid on all Retail Orders in the U.S.A. that amount to \$10.00 or more. On smaller orders add 50c for packing and postage. If special handling is desired please add 35c to order—it is good insurance if you live at a distance.
- Shipment** We can ship as a rule throughout the year—but prefer to limit it to our regular shipping season—March 1st to December 1st—except by special arrangement. It is important for plants to get established before cold weather so please take that into consideration when placing orders.
- Catalog** Free to all customers of record over a two year period, and to those dealers who wish to reciprocate. Otherwise, send 20c for copy and deduct amount from first order. Please print or type your name and address.
- Visitors** We are always glad to see you. Our garden is open from 8:00 A.M. to 4:00 P.M. Other days and times by appointment. Telephone 622-3664.
- Gifts** Use daylilies for birthdays, anniversaries and important occasions for gardening friends. They may be had in every price range. We will take pleasure in helping you make the right selection.
- Join** The American Hemerocallis Society, Inc.

To reach our garden and nursery from Ocala: Take Silver Springs Boulevard (Road 40) east to city limit where the four lane width ends. Leave Road 40 (which bears to the left to Silver Springs) and take the road which bears slightly to the right for three tenths of a mile to our place—the first house on the right.

IF you have liked our catalog, please use it.
 Only the cooperation of our customers has made it possible.
 If you have no use for it, kindly oblige us by handing it on to a
 gardening friend. Thank you.
